*The maximum contribution is the maximum weekly amount (inclusive of GST) that a resident assessed as requiring long-term residential care (through a needs assessment and service coordination agency) is required to pay for contracted care services provided to them in the region in which their rest home or continuing care hospital is located. The maximum contribution is the same for all residents regardless of the type of contracted care services they receive. It is equivalent to the rest home contract price applying to residential care facilities in each territorial local authority region. The maximum contribution set by this notice applies from 1 September 2022 and replaces the previous maximum contribution notice published in the New Zealand Gazette, 30 June 2022, Notice No. 2022-go2606.

**It is recommended that any person seeking care at Nazareth Care obtain a Financial Means Assessment prior to commencing residency at Nazareth Care as this will determine the total amount that is to be paid by the resident and the total amount that will be paid as funding by Health New Zealand. Assessment is obtained through lodging the Residential Care Subsidy Financial Means Assessment Application Form. If this assessment is not lodged the resident will be classed as a Private Payer and will be responsible for the full cost of their care. The resident should lodge an application with Work & Income if part of their care fees is to be paid via a contribution by Work & Income. If a resident is not eligible to receive the Residential Care Subsidy, they may be eligible for a Residential Care Loan.
